Seating Solutions

Being on top of your game to handle the daily grind year after year depends a lot on your workspace ergonomics as well. HNI India seating products by virtue of design, have conveniently placed controls that provide the user with bespoke comfort. With superior quality, advanced features, affordable ergonomics and functional aesthetics, HNI India seating products are designed for the people responsible for getting the work done.

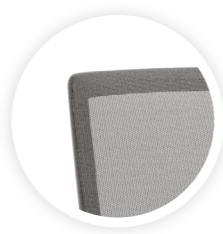

Evo

Our Science Your Comfort

The Evo task chair is engineered with your comfort in mind. Focused on the user experience, it's made for dynamic movement and postures. The unique contoured frame offers comfortable lumbar support for engaged task behaviors, while the arched open-arm facilitates side-seated and multi-direction interactions. A sophisticated thick-seated cushion reduces pressure points and aids weight distribution, with a simple-touch control for effort-free ergonomic adjustment.

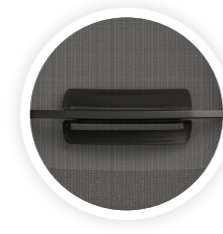

Breathable mesh
The frame covers the mesh and protects it

Fully adjustable arched arms
Allows for personalized arm postures

Adjustable Lumbar
Adjustable height for ultimate comfort

Adaptable seat
Adjust the depth up to 7cm to optimize comfort.

Simple Touch Control
Easy-to-access controls are integrated for a cleaner aesthetic.

Combine the upholstery options on seat and backrest to customise the chair

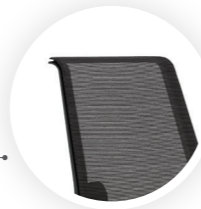

#16

Your Perfect Seating Symphony

#16 design inspiration was taken from automotive styling using chiseled or cut bodystyling as well as angular trends in architecture. "chiseled and cut, yet refined and sculpted". The design has an angular, modern aesthetic and is an intentional departure from current HNI styling with the thin, flat back frame and angular theme throughout all components. We wanted #16 to be customizable so the customer can have color options for the frame, mesh, and upholstery. We wanted reduced clutter and complexity, making it easy for the customer to understand and use."

Stay flexible with Comfortable and stretchable mesh

Enjoy personalized support with independently adjustable lumbar.

Keep the upper hand with adjustable arms for added comfort and support.

Live the simple life with integrated, intuitive, weight-activated tilt control and stability recline lock.

Find a higher purpose or stay low key with a pneumatic seat height adjustment.

Take your turn with a 360-degree swivel for freedom of movement.

Disclaimer :

Natural Variation in colour and structure of raw material for fabrics / paints / laminates, makes it impossible to guarantee that the final shades will match perfectly in every case. Minor discrepancies in the colour of the goods supplied, subsequent or supplementary items cannot therefore be recorded as justification for any claim to replacement. Batch to batch variations in shade / colour matching may occur within commercial tolerances. Since different classes of paints are required for MDF and metal items, perfect shade matching cannot be guaranteed. We would however endeavour to attain as close a match as possible.
